

## 1936 Revere Manhattan Complete Set

**Availability:** In Stock

**Price:** \$15,950.00

### Short Description

Super Like New, Complete Rare Revere Manhattan Cocktail Shaker set! My collection.

### Description

By the way this is the actual picture of my set, I was lucky enough to have purchased it from a professional photographer! This ca 1936 set designed by Norman Bel Geddes includes the Manhattan cocktail shaker, the matching Manhattan tray and a set of six of the very rare matching cups! The Shaker measures a towering 13" high x 3 1/4" diameter, chrome plated over brass, marked on the bottom... Revere Rome NY. All six of the cups are in excellent condition and marked on the bottom. They are extremely rare, they were only manufactured for a short period making them the most difficult part of the Manhattan set to find. Many people don't realize that the cup is actually the same piece as the top cap of the shaker. The elegant matching tray also marked Revere Rome NY measures 14 1/2" x 11 1/2", it looks never used as there are virtually no surface scratches. Condition of all pieces are the best you will find!
