Short Description

Revere Bel Geddes Cup(s) for Cocktail Set

Description

This is the most requested item I receive for people looking to complete their Revere Manhattan Cocktail sets. Designed by Norman Bel Geddes they were only manufactured for a short period making them the most difficult part of the Manhattan set to find. Many people don't realize that the cup is actually the same piece as the top cap of the shaker. These are in great condition with nothing wrong other than maybe a slight scuff or so but there are no noticeable flaws. Price is per each, pick how many you need for your collection.
